Subject: NBSA Environmental Sample Collection Report (aka Crab-Clam Fish Field Report) RTCs

Eugenia – as we discussed on a recent coordination call, please find attached Tierra's Response to Comments (RTC) document for the Newark Bay Study Area Environmental Sample Collection Report (also known as the Crab-Clam Fish Field Report) (Tierra Solutions, Inc., June 2016). These RTCs address each of EPA's comments received on September 26, 2016.

Tierra is prepared to either discuss these RTCs if your team has questions or we can make the indicated changes and submit the report as final.

Thanks
Cliff
